

EPD182

Description:

Powerful, mildly alkaline, non-butyl, polymeric degreaser for cleaning all water washable surfaces. Safe, mild on the skin, nontoxic, biodegradable and super-concentrated for economical use. Gives superior cleaning on all surfaces when used manually, in soak tanks, or by machines.

FEATURES:

- Aqueous formula
- Biodegradable
- Super concentrated
- Non-corrosive
- Free rinsing
- Unique detergent system
- Non-chelated

BENEFITS:

- Non-combustible, no VOCs
- Workplace safety
- Long life & lower cost
- Lower disposal costs
- No residue after drying
- Works on a wide variety of lubes
- Easier waste treatment

APPLICATIONS:

- Removal of petroleum, synthetic, stearate, honing oils and many other machining, drawing and forming lubricants
- Hand-wiping of heavy soils before dip-tank cleaning in plating shops
- Cleaning of small precision parts in ultrasonic tanks
- Hand or dip-tank cleaning of copper, brass, aluminum and other non-ferrous metals
