

EPD201

Description:

Very low spray foaming cabinet cleaner for steel, copper, brass, painted and plastic parts. Formulated with a modern oil separated detergent system for cleaner recycling and maximum efficiency of use. May require added defoamer in high-pressure spray cabinets when removing high foaming and cutting and forming oils. Use with an oil separator or hold tank.

FEATURES:

- Non-emulsifying
- Low foaming
- Super concentrated
- Free rinsing
- Solubilizers & penetrants
- Low odor
- Non-corrosive
- Biodegradable

BENEFITS:

- Recyclable
- Accommodates high pressure spray action
- Long life and lower cost
- No streaks or residue on parts
- Quick removal of greases & oils
- Workplace acceptance
- Less costly disposal
- No hazardous ingredients

APPLICATIONS:

- Removal of most soluble or non-soluble lubricants from parts
- Thorough cleaning of even nested small parts
- Short cycle degreasing of parts using high water temperatures
- Degreasing of all ferrous as well as plastic parts
