

EPD205

Description:

Powerful, highly alkaline, defoaming spray-cabinet or high-pressure washing detergent/degreaser for superior cleaning of steel parts and surfaces. An extremely vigorous and powerful cleaner that is effective on most soils when used hot or cold. Oils split out so the cleaner can be recycled for economy, and spent cleaner can be legally sewerred or sent to ground.

FEATURES:

- Non-emulsifying
- Super concentrated
- Free rinsing
- Solubilizers and penetrants
- Low odor
- Potassium hydroxide
- Biodegradable
- Low foaming

BENEFITS:

- Recyclable
- Long life
- No streaks or residue on parts
- Quick removal of greases & oils
- Workplace acceptance
- Removes stubborn lubricants
- No hazardous ingredients
- Accommodates high pressure spray action

APPLICATIONS:

- Removal of most soluble or non-soluble lubricants in parts washer machines
- Thorough cleaning of even small, nested parts
- Short cycle degreasing of parts using high water temperatures
- Degreasing of all ferrous as well as plastic parts
- Removal of chlorinated lubes
