

# EPD250

## Description:

General purpose, low-foaming oil separation degreaser for removing oily industrial transportation soils. Oils split from the solution and float to the top on standing or when sent through an oil water separator. The oil-free cleaner can be recycled for economy of use, and the excess cleaner with less than 10 ppm of oils can be legally sewered.

## FEATURES:

- Non-emulsifying
- Less than 10 ppm oil in spent cleaner
- Permits immediate skimming
- Separate disposal of oils & greases
- Biodegradable
- Aqueous solution
- Non-corrosive & non-chelated
- Free-rinsing

## BENEFITS:

- Recyclable
- Can be legally sewered
- Longer, cleaner life
- Significant disposal cost savings
- Non-toxic
- Non-combustible, no VOCs
- Lower cost waste treatment
- No residue on cleaned parts

## APPLICATIONS:

- Removal of soluble and insoluble cutting/machining oils and coolants and drawing lubricants
- Non-streak cleaning of stainless steel parts
- Splitting out oils in settling tanks and sumps for waste treatment
