

EPP19

Description:

High purity, isoparaffinic solvent that is essentially odorless and flashes at 142° F for safe handling. Environmentally safe replacement for chlorinated solvents in applications where aqueous oil-split degreasers or spray cabinet cleaners cannot be used.

FEATURES:

- Unmatched purity
- Odorless
- Non-corrosive
- No fumes
- High oil tolerance
- 50 to 60 KV
- Non-reactive
- Light weight
- Low vapor pressure

BENEFITS:

- No residue
- Better working conditions
- Easy on hands and threaded parts
- Needs only normal ventilation
- Long life
- High voltage protection
- Suitable to use on soft metals
- Fast drying
- Unregulated as to VOCs

APPLICATIONS:

- Degreasing machined gears of non-soluble lubes
- Degreasing parts with orifices that must be residue free
- Degreasing of small parts in ultrasonic tanks
- Degreasing of current-carrying equipment
- Production machinery wipe-down
- Oil removal from circuit boards
- Light-duty drilling and tapping
- Degreasing of soft, corrosion-prone metals
- Cold cleaning of plastics
