

EPD160

Description:

Extremely powerful, industrial grade, alkaline cleaner-degreaser and scum remover. Rapidly removes all stubborn soap soils, soap scum, hard water stains, smoke residues, burned on food soils. Cleans and brightens cement floors, porcelain, quarry and glazed tile, terrazzo, brick, glass, plastic and metals. Excellent for cleaning after fires, aluminum siding, home exteriors, cement or brick floors & walls and other washable surfaces prior to sealing or painting. Superior, safe, alkaline bathroom tile, floor and shower scum remover for schools and institutions.

FEATURES:

- Biodegradable
- Non-combustible
- USDA A1 Safety Rating
- Alkaline detergent
- Free rinsing
- Chelated

BENEFITS:

- Sewer disposable
- No fire risk or VOCs
- Worker safety
- Environmentally friendly
- No residue after rinsing
- Breaks down the toughest lubricants

APPLICATIONS:

- Can be used on ferrous metals, plastics, cement, brick, tile, glass, porcelain or ceramics
- Removes stubborn lubricants, hard water stains, smoke and burned on soils
- Effective on aerospace greases, stearates, lapping compounds and other heavy lubricants, often when used with heat
- Removal of fire and smoke damage from cement and brick surfaces
- Removes hard water scum and brightens grouting in bathrooms and shower stalls
