

EPD198

Description:

Very aggressive, alkaline aluminum truck and coil cleaner/brightener that splits out all oily soils so the cleaner can be recycled for maximum economy. Spent cleaner and rinse water with less than 10 ppm oils can be sewerred and in many areas dumped to ground; check local and state regulations. Formulated for use with oil separation equipment, but splits oils well enough within 20 minutes in hold tanks for recycling.

FEATURES:

- Biodegradable
- USDA approved
- Highly concentrated
- Alkaline detergent

BENEFITS:

- Non-toxic
- In accordance with federal guidelines
- Long life, lower cost
- Environmentally friendly

APPLICATIONS:

- Ideal for meat, poultry and egg processing plants
- Cleans and brightens aluminum trucks, trailers, buses, machinery, concrete floors and all food contact surfaces
